

# Bains Road Preschool & Lobethal Community Kindergarten STEM EARLY YEARS LEAD LEARNING SITES PRESENT...

## Building *Powerful and Playful* STEM Learners in the Early Years

### EARLY CHILDHOOD ADVOCACY & ETHICAL LEADERSHIP MASTER CLASS WITH CATHARINE HYDON

Thursday March 14, 2019

In this master class with Catharine, we will explore leadership as an action, rather than a title.

Together we will unpack how you can advocate and enact philosophies, values and beliefs that underpin your work, regardless of your role.

Be ready to be provoked, inspired, energised and challenged for the year ahead.

Suitable for early childhood support staff, educators and leaders.

### PLAYFUL STEM CONFERENCE FACILITATED BY CATHARINE HYDON & EARLY YEARS STEM LEAD LEARNING SITES

Friday March 15, 2019

Join Bains Rd Preschool and Lobethal Community Kindergarten, along with their project sites share their uniquely different approaches to STEM learning in the early years. Together, they will unpack the three pillars that enable powerful and playful learning.

3 pillars of powerful learning:

- Role of the educator
- Quality learning environments
- Powerful learning dispositions

Suitable for educators from early childhood settings and early years of school.

Join us as we unpack how STEM Lead Learning sites achieved powerful STEM learning with a focus on relationships and learning dispositions, rather than content alone. We will explore playful and responsive pedagogies across a range of early years settings.
